

ProductionLine
TESTERS

IC100-S

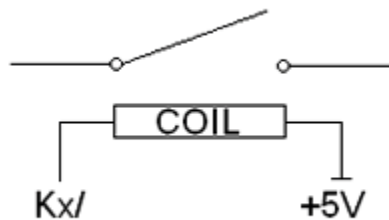

LBK

(Loadboard Relays)

Features:

- 32 floating relays for general purpose use on loadboard
- Both poles of the relay are available for use
- All coils attached to 5V power plane
- Each control line is independently selected for each test
- Simple checkboxes in GUI close relays when checked
- Relays remain closed if checked on consecutive tests
- Ultra-reliable Coto relays are used

(only 1 of 32 shown)

Specifications:

- Coto 9012 SIP relays
- Switching voltage: 200V max
- Switching / carry current: 0.5 / 1.2 amps max
- Life expectancy (>0.5 ohms): 500 million operations
- Resistance / impedance: 0.14 / 0.2 ohms
