IC100-S

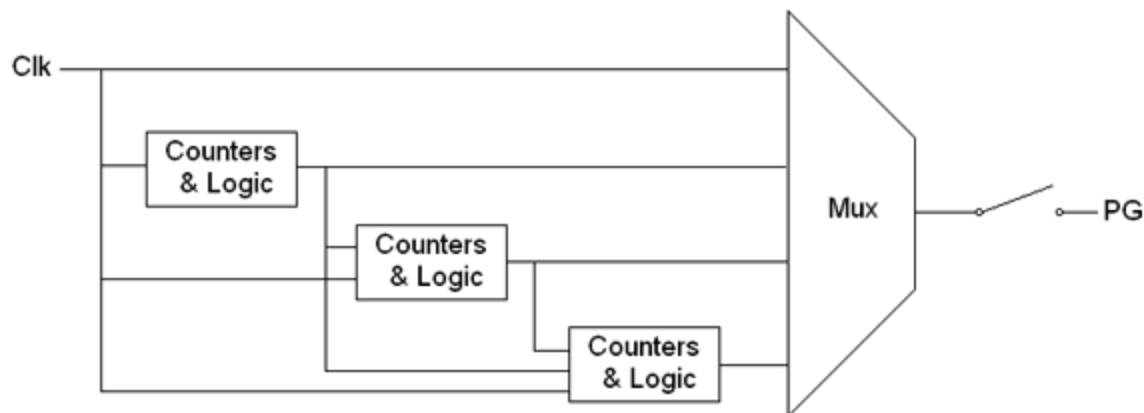

PLS

(Pulse Generator)

Features:

- Programmable frequency & pulse widths
- Clocking from near-DC to 50MHz
- Programmable I/O amplitude for compatibility
- Programmable number of burst & time between bursts
- Easy to use software interface

Specifications:

- Pulse generator: 20nsec resolution
- Pulse widths: 40nsec min. to 1.3msec max
- Burst counter: single pulse output, to 64K pulses max
- Multiple bursts to 64K
